

Body parts and numbers

- All players have a ball and dribble around the grid
- On coaches command, players place a part of their body on the ball
- On coaches command, players place a number of body parts on the ground
- Players can begin dribbling around the area once completed
- Players should take little touches and keep the ball close

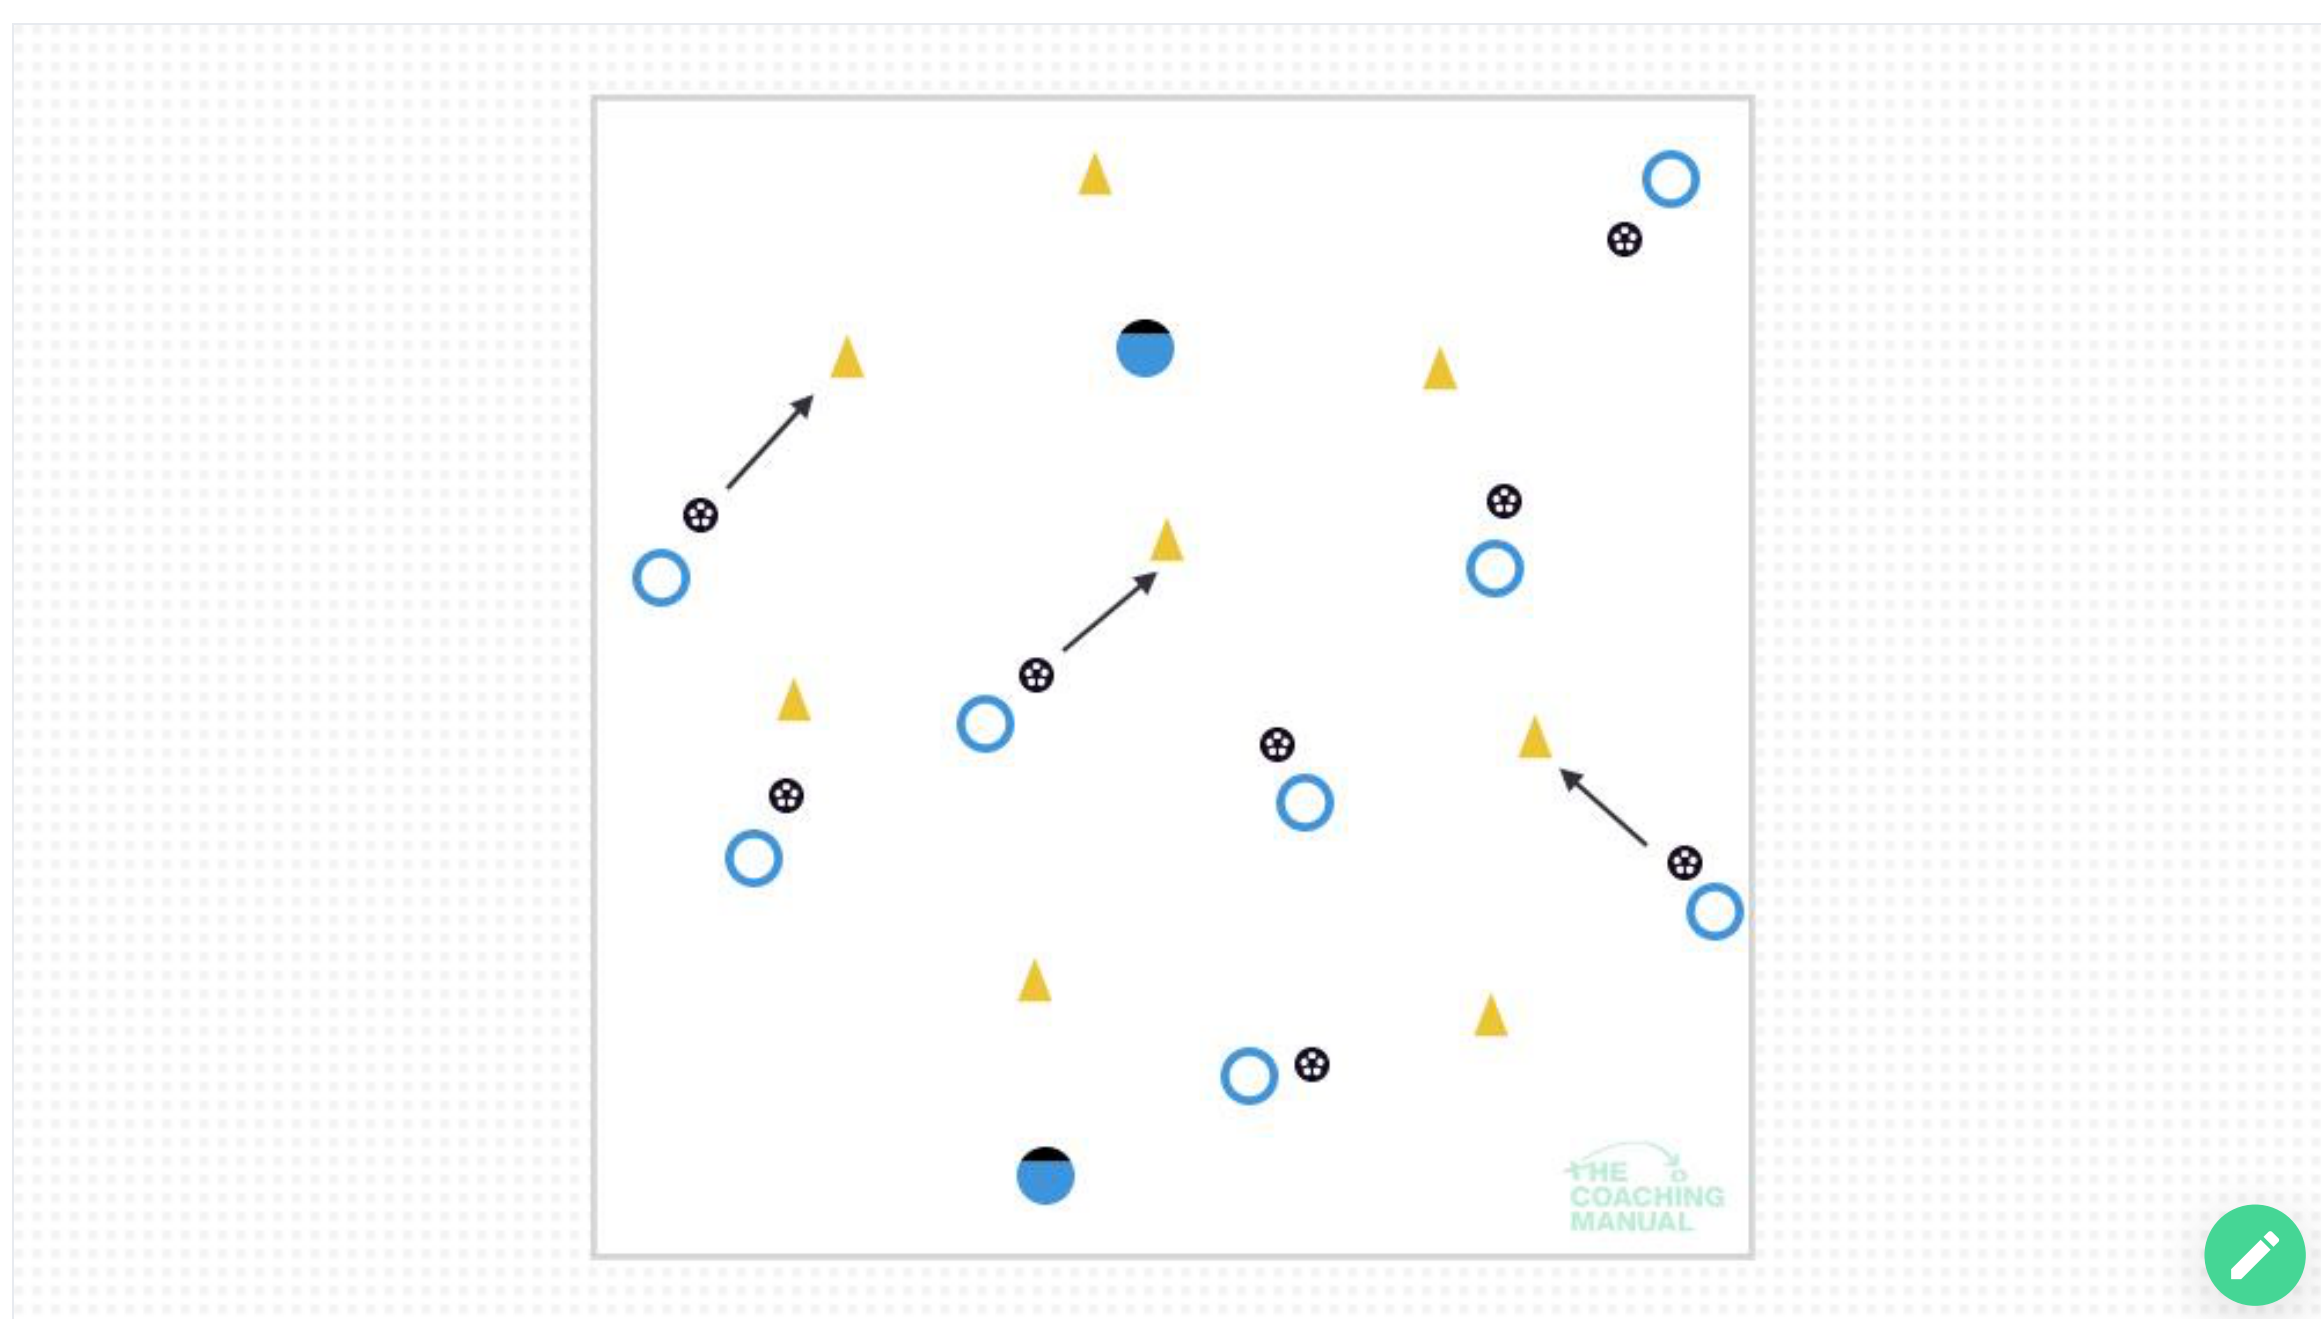

Zootropolis - snowball chaos

- Each player has a ball and their job is to move the "snowballs" around the snow with their feet.
- Its Judy and nicks job to bring the soccer balls back into the igloo (circle)
- Move the snowball with your feet
- The polar bears can leave the snowballs anywhere outside of the igloo

King and Queen of the castle

- soccer players are dribbling around the castle with their cannon (soccer ball)
- We want them to fire their cannons at the castle (tall cones) to become king or queen of the castle
- Coaches start as king or queen of the castle and start fixing the castles (tall cones) with their feet, as they get knocked down can they stand them up again.
- After 60-90 seconds pick 2 player to be king or queen of the castle and they have to see how many castles (cones) they have stand up.

Coach Robot

- The coaches are pretending to be robots which the players must destroy
- The players dribble around the grid and attempt to kick their soccer ball at the robots
- One hit means the robot loses an arm, two hits and they lose another arm, three hits and they lose a leg, four hits and they lose their second leg and last hit the robot is destroyed
